SAN FRANCISCO --- Attorney General Kamala D. HarrisIssues Statement on Proposed AT&T and T-Mobile Merger: "Our review of the proposed merger between AT&T and T-Mobile has led me to conclude that it would hinder competition and reduce consumer choice. Today we joined the United States Department of Justice in filing suit to prevent this merger. Enforcement of antitrust law is the responsibility of the Attorney General and is vital to protecting our state's economic strength and tradition of innovation for the betterment of all Californians. I look forward to working with the parties involved to resolve this matter in a way that will create jobs in our state, encourage a vibrant technology sector, and protect competition in the marketplace."
